District Office 660-656-3316 660-656-3633 FAX

Superintendent - Mrs. Julie Dill
660-656-3316

August 8, 2011

Dear Johnson County R VII Parent or Guardian,

The goal of the *No Child Left Behind Act* (NCLB) of 2001 is to ensure that all children in this country receive a quality education. Under NCLB, each state is required to assess all schools to determine if each school has made adequate yearly progress (AYP) toward meeting the academic testing standards and additional measures set by the state. AYP decisions are based on the results of state testing in communication arts and math and the school's attendance rate or graduation rate. If the school has not made AYP for two consecutive years, it is considered "in need of improvement."

Based on the results of the 2010-2011 academic testing in communication arts and math and the school's attendance rate or graduation rate, Crest Ridge School District did not make adequate yearly progress for the following reasons:

1. The math scores on the elementary state math assessment and on the scores on the high school state math assessment were not equal or greater to the state adequacy target.
2. Overall, our district met in five of six subgroups- which is better than the state as a whole scored but still short of the state adequacy target outlined by the No Child Left Behind Act.

Because this is the second year of this designation, the school is considered to be in Level 2 of School Improvement. We will continue to implement the plan for improvement which was developed last year. One important component of this plan is parent involvement in the implementation of the plan. Due to the size of the Crest Ridge School District, we only have one campus of elementary and secondary, so school choice is not an option available to our patrons

When a school is identified as Level 2 of School Improvement, Supplemental Educational Services (SES) are available for eligible children. Information about SES and how to obtain services will be coming within the next two weeks to parents of eligible children. All students from low-income families, those that qualify for free or reduced school lunch, who attend a Title I school in its second year of school improvement are eligible for SES. Students attending Crest Ridge Middle School (grades 6-8) are eligible for the Supplemental Educational Services-which is a free afterschool tutoring opportunity for skill remediation.

Information about public school choice and Supplemental Educational Services (SES) will also be available on the district's/LFA's website at www.crestridge.org and on bulletin boards in each of the school buildings. This information will be updated periodically.

We encourage you to become involved with your child's school to support school improvement. We will be hosting an informational meeting the first part of September for Crest Ridge Middle School eligible students and their families. If you have questions of eligibility for your middle school student, please call your building administrator.

Sincerely,

Julie K. Dill, Superintendent
